REDUCES WASTE

HARD DRIVE QUATTRO

EXTERNAL HARD DRIVE / 3.5" / eSATA / FIREWIRE 800 / FIREWIRE 400 / USB 2.0

Professional external hard drive with multiple high speed interfaces

- External, no nonsense hard drive for professional and home use
- 4 interfaces in one drive, provides optimal flexibility, connects to any computer!
- FireWire 800 and FireWire 400, ideally suited for Mac users, ideal for reliable external storage and Audio/Video editing
- eSATA – the fastest interface available, ideal for professional Audio/Video editing and authoring of large, uncompressed files
- USB 2.0 – the most commonly used interface, connects to any modern computer
- High quality aluminium enclosure, recyclable material, puts less strain on the environment
- Optimal internal airflow management
- No cooling fan – no noise!
- Compact design, only 15.5 x 14.8 x 4.3 cm, saves space on your desk
- Includes 2 rubber footstands for positioning the drive upright, taking up even less space on your desk
- Two years manufacturer's warranty and unlimited free helpdesk support

Ideal for office and home use

Office use:

- The ideal storage location for office documents such as large graphics files, administrative archives etc.
- The Hard Drive Quattro is ideally suited for AV professionals; use the Hard Drive Quattro to store and edit large uncompressed video and music files
- Make an extra copy of your files - always have a backup of your files available
- Use the Hard Drive Quattro for quick software installations on multiple computers

Home use:

- Store all your photo, music, video files on one location
- Take the drive with you if you need to share files or work on them on a remote location
- Make a backup of PC's / files in your home network
- Store a drive image of a clean OS installation on the Hard Drive Quattro and recover it in case of your PC's hard drive failure

Fast and flexible external hard drive

These days it's all about speed, reliability and flexibility. More and more people are working with large files such as DTP/graphical files and uncompressed video and audio. The need for an external hard drive with top speed and top reliability is more present than ever. The new Freecom Hard Drive Quattro provides it all. Its eSATA interface provides you with the fastest data transfer speed to date for a single external hard drive. Connected to eSATA, the Hard Drive Quattro performs up to 6x times faster than a standard USB 2.0 hard drive. The FireWire 800 & 400 interfaces have been the standard for years in the Mac world when it comes to external storage, providing a reliable and fast data transfer.

For optimal flexibility and portability, the Hard Drive Quattro is also equipped with a USB 2.0 connection, so you can connect it to any modern computer that does not have an eSATA or FireWire interface.

The Hard Drive Quattro comes in a stylish aluminium enclosure which will compliment the design of your PC or Mac, with the possibility to position it horizontally or vertically on your desk.

The Freecom Hard Drive Quattro is pre-formatted (FAT-32), so you're ready to use your drive seconds after connecting it to your PC or Mac. At Freecom we create storage solutions from a consumer's perspective, where convenience and quality are key factors.
